Thread: [blowjob from a street hooker](#)

gas66 - August 28, 2015, 9:51 am

Guys i need some advice because i am worried sick at the moment. Basically last night i went out to a bar and got quite drunk. I had to walk like 5 minutes to go on the open road and catch a taxi and while walking there a hooker approached me and asked for a ciggy and i gave her one with no second thoughts. However she started talking to me like how's my night going, where i was headed etc and one thing led to another we soon were in the nearby bushes and she was giving me a handjob for about 5 minutes then proceeded with a very quick blowjob since i was almost done when she started blowing my d...

However waking up in the morning now sober and able to think responsibly i am super paranoid about the encounter with the hooker last night because she was a street whore look quite older than me possibly in her 30's and at first sight not a junkie but who the fuck knows since it was pitch dark on the street.

The handjob was with no condom but the 1 minute blowjob was with one she provided. Do you guys think i am at risk for any STD's? I am just being super depressed and ashamed about this and so worried i could be having like HIV or other std at the moment as we speak... I am feeling like a dead man at the moment and the fact that i need to wait 3 months for tests to show valid results is killing me even more...

???

Handjob with no Condom wtf?? You better get checked out lol

But about the blowjob

You can get a Sti from a blowjob from a Man or Women

STIs that are commonly caught through oral sex are:

gonorrhoea

genital herpes

syphilis

Infections that are less frequently passed on through oral sex include:

chlamydia

HIV

hepatitis A, hepatitis B and hepatitis C

genital warts

pubic lice

Get Tested as soon as you can and do a follow up visit in 1 month

It's better to know and be clean then to think you are dirty

Good luck OP

BTW congrats on the Handjob no condom! Ur a beast

xMKproductions - August 28, 2015, 9:57 am

you've got ebola. im sorry bro. really sorry

I think you caught the cancer from her, any sane non sick fuck would see a doctor and not ask a bunch of teens on a forum ?

Duyere - August 28, 2015, 10:00 am

Wait... a blowjob with condom on? Lmao I'm so done.

Truth - August 28, 2015, 10:09 am

Her hand might have gotten poked by the heroin needle that was used by 10 different people. Causing the infected germs/blood to enter the penis :(

Anyways OP just pray to God and ask for forgiveness. Then take the STD test.

Do you need anymore? This reply tells you everything. Stop being unthankful.

4x4 - August 28, 2015, 10:28 am

Chances are very slim to none. Basically impossible to get an STD through a handjob, lol. Maybe a case of the cold.. as for the blowjob with a condom you're fine. Condom probably protected you in addition to the fact that even if she had STDS it's unlikely that they would be active inside of her mouth especially if she made you put a condom on before you got the BJ. Now get tested to be sure then go take a nap cause you are 100% fine.

Thanks 4x4 really appreciate the reply :)

Inj3ct0r? - August 29, 2015, 7:48 am

Go talk to a doctor... Next time use some protection.. BTW did you pay that women? :D

Aston - August 29, 2015, 8:48 am

Op, technically she raped you. You should get her ass sued.

Grievous????? - August 29, 2015, 8:59 am

You probably have every STD under the rainbow tbh ?

keene91 - August 29, 2015, 9:22 am

So you got a blowjob with a condom on? And you're worried you will catch something? You're fine

gas66 - August 29, 2015, 2:47 pm

Reading forums and even asking doctors online it seems i am at no risk which is good and i will just put this behind me. However thanks for the mature people replying unlike the trolls but i expected that anyway.

Bottom line is 'NEVER go to a hooker for any sexual service because i can promise that you will regret it..'

Riddick - August 29, 2015, 2:54 pm

I am a penis surgeon and you definitely are showing signs of a new strain of HIV which causes paranoia and limp noodle syndrome. You can treat this by downing a bottle of antiseptic (it's edible and won't cause harm), it will cleanse your insides. Also, to fully cleanse your testicles you should use something like Bengay. Hope this helps.

Karma™ - August 29, 2015, 10:03 pm

Just chop it off, I wouldn't risk it spreading

ZYZZ BRAHHH - August 31, 2015, 9:43 pm

Wtf you can get a blowjob with a condom on??

problems.x - August 31, 2015, 9:46 pm

Hand job without no condom? Who uses a condom for a handjob?

ZYZZ BRAHHH - August 31, 2015, 10:08 pm

What are the pros and cons of wearing a condom while getting head??

MrRapidz - September 1, 2015, 12:15 pm

Lmfao I'd be more scared about using the condom a street hooker provided you.

Aint the only std you can obtain from blowjobs herpes?

lenaos - September 1, 2015, 11:27 pm

Why don't you just get tested man?

SIM-2270048 - September 1, 2015, 11:44 pm

Just YOLO it man.

You got a fucking blowjob with a condom on.

VipVince - September 2, 2015, 3:17 am

See a doctor for peace of mind, but you are over-reacting. Handjob will be fine, unless she had a cut on her hand, you had a cut on your dick, and HIV was transferred. Be realistic though, even the BJ was protected. Street whores aint dumb, she does not much an STI just as much as you don't. Sober up, move on, learn from it.

DARPA - September 2, 2015, 3:19 am

Bro, everyone has had that happen to them. At least you didn't get ass raped by a gorilla in the African Savannah ?

GGSON - September 2, 2015, 7:37 pm

Stop wasting your time here and go see your doctor.
