Will there be usergroups on OF?
Are there any usergroups available for free?
Will I get anything special if I join OmegaForums?

I find the theme too overused in this industry. I noticed it straight away. Not a fan of the orange neither. Try to reduce the amount of forums there is also, only by a little. There should be no need for tabs at this precise moment as there just simply shouldn't be that many forums, with little activity. Other than that, good luck.

I am going to do an upgrade competition soon. As far as OmegaCoins for upgrades, I am implementing that soon.
