What is eWhoring

e-Whoring sexual manipulation social engineering technique, this is often used in chatrooms, IM's, KIK and more.

What payment services to receive payments

You can use a lot of payment services such as PayPal

Amazon Gift Cards

Crypto currency's (example: "Bitcoin, Litecoin, DogeCoin")

Skrill

Perfect money

The best Payment service to use is PayPal, you need to verify it and upgrade to a business account, i have used PayPal a lot and it works like a charm.

The second best is to use AGC (Amazon Gift Card).

A lot of people use it and you can buy a lot of cool stuff with it or exchange it to another kind of currency.

Other Payment services i listed aren't used that often, although BTC (Bitcoin) gets used by some customers you are going to get.

How to receive money

Receiving money is very easy!

With PayPal, you need to give your email address and the same goes for Amazon Gift Cards, there is a difference though.

With PayPal, you receive everything automatically.

With AGC (Amazon Gift Card) you need to go to your email and claim the card in order to receive the payment.

What prices for what you are selling

So, you wanna sell nudes, these are the prices that are mostly used, don't sell 200 nudes for \$10 because that will fuck it up for others!

note: I am not selling nudes here, these are prices you can use while eWhoring

Prices for nudes \$20 for 30 nudes

\$40 for 65 nudes

etc.

Prices for video's 10 minutes for \$20

20 minutes for \$35

etc.

Just keep your prices high and look what is best, you can ask the guy how much he is spending, and then you can choose how many video's or nudes you give for it.

How to talk like a eWhore

If you wanna start eWhoring, you need to know how to talk like one, it is very easy.

First of all, don't forget you are eWhoring, don't say stuff like thanks bro and stuff, i know this happens but try not too.

You have to talk with a lot of x's
This is a conversation you might have

Stranger: Hey, i saw you on the site

You: Yeah x, wanna buy pics and sext after?x

Stranger: How do i know you are real? can i have a sample?

You: Sure x

You: (*sample*)

Stranger: You look very sexy

You: How much are you spending?x PP

Stranger: around \$20

You: for \$20 i can give you 30 nudes and if you buy now i can add a couple more x

Stranger: Okay x

You: send money to example@domain.com

Stranger: money sent huney x

(*You start giving nudes or what you have promised*)

As you see it isn't very hard.

How too weed out time-wasters

We are talking about kik right here, but it counts for everything

You have seen the classic time-waster, he wastes all of your time and annoys you a lot, it is kinda annoying because time is money!

I will teach you in this thread how to spot a time-waster!

1. Most people from Africa and other poor country's aren't going to pay you, no offense.

2. Someone who asks for this kind of shit,

Can i have some sample?

Can i have some previews?

I need a lot of samples before i buy!

--

Giving one preview is okay!

But if they ask for Some previews, block them because they are time-wasters!

3. People that ask things like,

Can we just sext?

Can we just trade?

--

They are time-wasters, believe me!

4. people that want to sext and get pictures first and pay later.

Those people are time-waster, most of the time they don't even have cash!

5. People that say that say this,

I am so horny right now, can't we just sext and pics first?

i am getting paid tomorrow, can't we have fun right now?

I have a lot of money on my PayPal, if you make me cum i give you a lot of cash!

6. The guy that wants to see every part of your body!

If you send a ass picture, and they want to see tits to before buying,

Block them, because they are gonna jerk off and run of just like every other guy!

7. Teenagers

If the guy is a skater, the guy is handsome or something among those lines, block them, they aren't gonna buy shit of you!

8. People that send a lot of dick pictures,
From my experience, every one that sends a lot of dick pictures aren't gonna pay shit of you, i don't know why!

9. people with emoji in their names!
99% of the time they won't buy shit, believe me!

10, and last of all, if the conversation goes like this
You: Hey, wanna buy pics and sext after?x
Time-Waster: ok
You: Block them, because they think that you are a bot, or they aren't interested!

General eWhore tips and tricks

I have compiled some tricks and tips for eWhoring
Hide your webcam when you are VWC eWhoring,
do this to hide your self when ManyCam fails

When giving out previews, do not give out fully nude ones, give out teasers, and if they ask for more then say "If you want more you have to pay x"

Use a VPN, it can be [censored] cloak or anything, but use a VPN or proxy when eWhoring

Upgrade your PayPal to a business account, so you can sell a lot, name your company "selling stuff online"

If someone chargebacks, ask for money back and say "I deliver'd your virtual items" because PayPal doesn't care about virtual items

Use FakeNameGenerator.com

If more tips need to me added, tell me!

70 eWhore packs with matching video content
Took me a solid 10 hours to compile and upload!
<http://pastebin.com/Zi328Nf4>

Moved to pastebin because of character limitation.
These are very good packs to use, most of them have matching GIFS and video's.

How to start e-whoring on KIK

e-Whoring on KIK is easy, you just need to know how to set it up

Video version of installing.

First, you need to download Bluestacks, it is available on mac osx and windows!
You can download Bluestacks on <https://www.bluestacks.com/>

You need to install bluestacks

1. [Picture one](#)
2. [Picture two](#)

That easy, you just installed bluestacks.
Now, you have to use the search function
[Picture three](#)

And then, from there you can search for every app you want

[Picture Four](#)

Now, you have to download the following apps
Firefox

when you download Firefox, download the following app, KIK, but don't download it from the Playstore because you can't modify kik with fake camera

Download a older KIK version [here!](#)

Now install it, looks like [this](#)

Now, make a KIK account

after you have done all above, go to the search function off Bluestacks and search for, Fake Camera

[picture six](#)

You only have to install it, it is that easy!

Then you need to get your eWhore pack,
get your ewhore pack here Spoiler ([Click to View](#))
<https://hackforums.net/showthread.php?tid=4926145>

You need to directly download them from the bluestacks browser

a good tip, head over KIK settings and enable sent enter message key

[Picture ten](#)

now, You are done

Now select a pic to send to TeamKIK to see if it worked.
and then it is token from the camera because of Fake camera

[Picture eleven](#)

You just installed KIK and now you can start eWhoring on it.

How to eWhore on CS:GO

here i am going to show you how to eWhore CS:GO skins, it is super easy, and this isn't a leak from [this](#) ebook (didn't even bought it)

First you make a steam account [here!](#)

Then you get CS:GO which is around \$15, you can buy it with PayPal.

Then you are going to change your avatar to a picture of your eWhore (none nude) here is a tutorial on how to change your cs:go avatar Spoiler [\(Click to View\)](#)

Then you prepare your eWhore pack, you can get one of my 70 eWhore packs
Get a eWhore pack [here!](#)

Then, go too CS:GO and play around a little learn about CS:GO communication
[here!](#)

Then when you are in a game, You can shout out your eWhore Skype / KIK on the chat, click "T" to chat with other people, and you can chat with them too using steam chat.
Loads of horny little kids will add you instantly

Then when you have a good amount of customers, the eWhoring comes in part, it is like selling nudes on KIK for money but then for skins.

Talking too them is easy, they will probably say shit like

"You are so cute"

"You have a boyfriend"

"I kinda like you"

That is the part you need to take advantage off, say stuff like

I really love this game and i really need some csgo skins i will do everything for it, and get the guy horny with giving a lot of nudes

Then go straight too the point, say something like

well, I will show my tits for (skin your choice) :\$

and sometimes they will agree and sometimes not

The kids will buy because they want to see your tits / ass

And if one kid doesn't work, a load of other kids will add you

This is everything in steps

1. Get attention
2. get a load of kids to add you on Skype/KIK
3. make them thirsty and desperate for you
4. start the eWhoring process
5. get a load of skins
6. resell them
7. profit

It is very easy and self explanatory.

How to eWhore using a VWC

Here it comes, you can actually fake cam shows with commands by configuring flash and manycam in a special way, and it is very easy!

So first, you need a VWC, getting one is simple, get a free (saturated) one or get a high tech one, your choice.

Go watch this video on how to setup a VWC!

You even get some VWC'S from the guy, and i do not take credit for this.

How to eWhore in a chatroom

eWhoring in chatrooms is like eWhoring on KIK, it is very easy, you can do cam shows using a VWC, or you can sell nudes and video's whatever you do, it is very easy.

Tips:

Cover your webcam, sometimes ManyCam doesn't instantly reacts, and you wanna hide your identity.

Take the customer to KIK or ask for his KIK so you can make more money off him

Further, you know the traffic sources i gave you, loads of horny guys with big wallets, take your shot!

How to eWhore on craigslist

This method became kinda saturated over time but is semi auto pilot

Note: use a VPN while doing this for your safety

First, you need a craigslist account. It is easy to make one

And verify it with your phone number (*It is safe*)

Now you need to post the ad. Post in big cities for more traffic.

When it asks for what kind of a ad it is, make sure and click romance. When it asks you "What do you have in mind", select No strings attached.

Then you need to choose where you want the ad to be placed.

Then comes the last part, this is what people are going to see, tell them you are selling nudes.

like this

Hey it is {eWhore} and i am in need of money so yea uhh i sell my nudes and video's and sizzle so if you want some and some of you sugar daddies wanna help out, it me up xx ;)

How to get money off a guy that was scammed by another guy

The Tutorial

So when a guy texts you to have fun, and you say your basic: ("Hey, wanna buy pics and sext after?"). He will probably say something like this: ("No, i have been scammed before.") or something among those lines, that is when you have spotted a victim that has been scammed, this is the next move you need to make. ("I don't scam huney, i am real") You can show real transactions and shit you have done. then he will say something like ("I am really scared, i know you are real but i am still scared of getting scammed...")

Then you say: ("Okay babe, usually i sell my pics for \$20 for 30 pics, but now i will sell you 10 nudes for \$5! ") You will do that to gain his trust, then when he makes a payment, you give him exactly what he wants plus another nude, and then you have two options,

first option is to say you need furniture for your new house, and that you just started living by yourself, and then you ask him to buy more nudes, so you can start buying some cool stuff for your self.

Second option is to just ask if he wants to have a great time, brag about the new camera you bought and how good it is and how good of a video's you can make, this will get him to buy your shit!

Final words

Thanks for reading my tutorial, and you all know me, i have been doing a lot for the eWhoring section, and now it is time for me to take a break off it, but i really needed to make this, you all saw it coming!

And please keep the thread alive by saying thanks.

Don't give up.

Good luck eWhoring.

Tomorrow i will have the thread looking better, thanks for replying! :)

Same thing that happened with my guide when I made it. I got around it by posting as soon as I got done with the tutorial, and it automatically added it in... However, since you've already gotten replies you're most likely going to have to just make a separate reply...

You've improved a lot. There's only a few grammatical errors, and a slim number of things I wouldn't agree with, but other than that absolutely solid.

And you made me lmao pretty hard when I saw a girl was named 'Fiz'. Thought Fiz had started to E-Whore themselves.

I am an experienced e-whorer. Been ehworing since 2012 and made over 40k USD so far. I've created many VCW's & e-books and made several threads on ewhoring help etc.

Introduced myself not to get any attention from you guys, I hardly access HF now. But to give weight-age to my advice that stop buying shitty e-books and e-whore packs. Simply follow this thread and make bank while you gradually learn how to ewhore perfectly.

To sum it up.....there is no such e-book or method that can bring you a fortune. The only way to UP your game is to work, practice, innovate and improvise. This thread has all that you need and trust me when I say "I never saw such a beautiful thread explaining and simplifying the e-whoring business"

KUDOS to the creator of this thread. You sir have earned my respect. ?

EDIT: Forgot to mention that most of the vouches you see on a sales thread are either fake or posted as a part of favour/bargain. These vouches are posted to entice and gain the trust of people seeking to make quick bucks. Be wise and do not spend your hard earned money on trash.

Very nice guide man. I think you pretty much covered it all ?

Page - September 1, 2015, 4:42 am

Great guide! I haven't been into ewhoring for 2 years and this got me back for sure. Made the first cash in 20 minutes on kik!

A little troubleshooting, though. I'm not sure if anyone else experienced this, but as always, I had troubles setting up software. ??? If any readers experiences this too, here are solutions:

After downloading firefox on bluestacks, instant error "Firefox has stopped working". Extremely simple, just press the + on bluestacks for automatically installed apps and use the default browser to download the older version of kik.

I also got an error when attempting to install kik. For somebody new, this might be quite frustrating. You might get the error "can not be installed". At least, I did. What you can do about this is also simple. I'll list down steps below to make it noob-friendly:

1. Download the older kik version .apk on windows, and copy&paste it in the folder: Program files (86x)/Bluestacks. Do not run it.
2. Run the file in your bluestacks folder, on windows, named HD-ApkHandler. A little box will show up, saying it is being installed. Wait for it to dissapear.
3. Now open the older version kik .apk in your windows folder bluestacks. Open the .apk with ApkHandler.
4. Restart bluestacks and you'll now have the older version of kik installed on bluestacks!

I'm probably the only one having shit installing some easy software, but if you're out there, having the same problem, do as listed above and it'll be just fine!

Regards,
Page

I have a question, when you get paid a lot how do you guys transfer the money to your account and withdraw it from an atm as your account balance is usually monitored?

Is there a way to do this?

purely for educational purposes

Well I mean as long as you do not scam the person, you should have no problems. If you blackmail someone into thinking they bought CP, then you have to be worried about things coming back to bite you in the ass.

What most people do is withdraw the money from paypal into their bank account.

Most people seem to appreciate the effort you've put into trying to help the community here. I won't lie, it does seem a bit attention grabbing in context with your other posts, but if you're helping then I don't think it really matters. I was just going to say "thanks for contributing" and move on, but since you've stickied this I feel the need to contribute a bit of feedback. I'll go through some of my thoughts in order of how they're laid out in your post. Take it or leave it lol, and feel free to chime in.

What is eWhoring

If you propose to describe eWhoring to someone who doesn't know, you should expand a bit more on the purpose of it, which is to earn money. You say it's a sexual manipulation social engineering technique, which is SPOT on, but what makes it "whoring" is that you're doing it for money. I would add a couple sentences there to complete that.

Payment

You've listed the basic versions of payment here which is great, personally I would also list Western Union there, even though many people try to scam with it, it CAN be done legitimately, I've had a couple customers pay with it. I would also stay away from calling something the "best" payment service, ie; PayPal like you said. Only because there are many reasons that people stay away from PayPal. It's convenient because many customers use it, but it's pretty widely accepted that Amazon is safer. Personally I wouldn't call one "better" than the others, just list how they're used, and their pros/cons.

Prices

Prices mostly look good, each person should develop their own basic guideline on how to price their products, but that's a good starting point.

How to make unsaturated eWhore packs

A lot more could be said on this topic, but overall good for beginners.

If you mention bulk image downloaders, you'd be remiss not to also mention video downloaders like the one below.

<https://addons.mozilla.org/en-US/firefox/addon/video-downloadhelper/>

How to Photoshop any name on your eWhore

No offence intended bud, I like you, but this part is pretty bad. It gives SOME idea of how the process works, but without going into any detail on making the text look real, and some of it is straight misleading like saying to use that exact brush all the time. I would either A) just link to a better tutorial, or B) make one that goes into much more detail, or C) have someone help you make a better one. The issue there is that if people follow those exact instructions, they'll be making something that will for sure tip their customers off, and they'll lose the potential money.

Skipping over traffic cause sites are sites, if you know more cool, but those are the basics.

How to talk like a eWhore

This part is also pretty atrocious. The way the "girl" here talks, is a textbook example of how to lose a customer. Yeah yeah, it might work every once in a while on some dumb sap, but you will lose MOST people by talking like this.

Also the whole thing about putting an 'x' after every sentence? That's just insanity. Don't ever do that, and don't try to tell me that "girls talk like that" because no, it's only kids who ewhore that talk like that lol.

Social engineering is not simple. Anyone who says it is, is bad at it. It's complex, and requires subtlety. If you want to talk about social engineering great, but it's not worth putting in a one liner and moving on, if you dig into it, then really dig into it.

How too weed out time-wasters

Pretty standard, I'd agree with all of this here except for the concept of blocking anyone who looks younger/good looking. OBVIOUSLY don't sell to minors for obvious reasons, but like 18-21 might be a lower likelihood, but I've gotten payments from quite a few, so don't dismiss them out of hand.

If you want to provide links to packs, I would put more than just your own thread. Throw up some of the other free ones floating around like the big thread that Fliix has, and some of the other big ones.

Not going to mention Kik section, CS:GO, VCW or chatrooms. All pretty basic, could use more detail, but they're fine for basic info.

How to eWhore on Craigslist

"Hey it is {eWhore} and i am in need of money so yea uhh i sell my nudes and video's and sizzle so if you want some and some of you sugar daddies wanna help out, it me up xx ;)"

Straight up, if you post that, you'll get your post deleted and most likely account banned. You have to be more subtle and tactful with Craigslist. It's one thing to mention using Craigslist, but don't give advice like this that plain doesn't work.

How to get money off a guy that was scammed by another guy

This part I would also say you could go into alot more detail, because a situation like this doesn't have a magical insta-work solution. Saying the things you suggest saying will turn most guys off to the idea of buying from you altogether. Be less robotic, more personal/understanding, commiserate with them about their problem, and talk about how you're in the same boat having been scammed many times, how depressing it is to have people trick you etc...

Overall pretty comprehensive, and great effort man. I hope you don't take any of this as insult, it's

really just a critique/my opinions on the info you've provided. I hope some of it helps.

Could also use some significant grammar editing. PM me if you care/want help with that.

And how he makes appear the but scene on the fake camera where he has all of those pictures can anybody share a little light on that?

A bit unsure of your issue here because of the grammar... but I think you're asking how to use the ewhore pics in bluestacks kik via fakecam? If so, install the proper version of kik, install fakecam, then open kik, and there is a plus sign next to the message box to add a picture, you choose your source which will be fakecam, then browse to "windows" and select the folder where your pictures are saved, choose a photo and upload it, it will send as if from the camera. Answer your question?

Oh I see what you're saying, you want to move all the photos to the bluestacks gallery folder.

Go to "search" for apps in the top left of the Bluestacks home menu, search for file manager, download/install a file manager, and it will allow you to move files around on your virtual sd card. Go to windows/pictures or wherever you have your pack stored, and copy the directory to your DCIM folder

Hey OP, this is a great guide you did over here and thanks for that.

Just a little tip, don't use photoshop for writing on body parts, use GIMP instead.

It loads faster, more simple to use, less annoying features.

Just pick air brush, addjust opacity, flow and size and experiment with it until it looks real to you.

The outcome is perfect.

Thanks a lot for the detailed instruction. ?

Can you show me the process on how to add any names via Gimp? I can't handle Photoshop much but GIMP (www.gimp.org) is excellent for adding and wrapping texts. So it will be wonderful if you help me out with it. ?

Thanks in advance.

But i do not have any problems to start making tutorials again. My grammar improved drastically.

So when i have time i'll remake this whole tutorial.

This is amazing, I really appreciate this because I've been out of the game since 2012/2013 and I need some insight of the new methods.

I used to use craigslist and I posted in all the major cities in East, Midwest, and Canada. My buddy posted in all the major cities and minor cities on the West coast and we made about \$1000 in an hour or two.

Thats what I do first always. Some say i have to use legit seeming names others say an alternative email is ok too but somehow I can't make it work. Tomorrow I will try change ip or try over tor. I need some sleep now.

BTW what are the risks if I enter my own phone number?

Justin_Bieber - May 2, 2016, 4:07 pm

I wanna give an advice. You had better to use a canadian paypal account (you can register a canadian paypal account without link your visa and using fake information) and then send you money to your real paypal account through Aiobuy (You sell a random product on aiobuy with your real paypal account and then you have to buy it with canadian paypal account because if you send money through paypay it won't work)

Also, I made 20\$ in 1 hour with this method. Thank you very much dopepizza
