Thread: [| How to eWhore on CS:GO | Get skins | sell skins | profit |](#)

dopepizza - August 30, 2015, 8:05 am

Welcome to my new tutorial, today i am going to show you how to eWhore CS:GO skins, it is super easy, and this isn't a leak from [this](#) ebook (didn't even bought it)

First you make a steam account [here](#)!

Than you get CS:GO which is around \$15, you can buy it with PayPal.

Than you are going to change your avatar to a picture of your eWhore (none nude) here is a tutorial on how to change your cs:go avatar Spoiler [\(Click to View\)](#)

Than you prepare your eWhore pack, you can get one of my 70 eWhore packs

Get a eWhore pack [here](#)!

Than, go too CS:GO and play around a little learn about CS:GO communication [here](#)!

Than when you are in a game, You can shout out your eWhore Skype / KIK on the chat, click "T" to chat with other people, and you can chat with them too using steam chat.

Loads of horny little kids will add you instantly

Than when you have a good amount of customers, the eWhoring comes in part, it is like selling nudes on KIK for money but than for skins.

Talking too them is easy, they will probably say shit like

"You are so cute"

"You have a boyfriend"

"I kinda like you"

That is the part you need to take advantage off, say stuff like

I really love this game and i really need some csgo skins i will do everything for it, and get the guy horny with giving a lot of nudes

Than go straight too the point, say something like

well, I will show my tits for (skin your choice) :\$

and sometimes they will agree and sometimes not

The kids will buy because they want to see your tits / ass

And if one kid doesn't work, a load of other kids will add you

This is everything in steps

1. Get attention
2. get a load of kids to add you on Skype/KIK
3. make them thirsty and desperate for you
4. start the eWhoring process
5. get a load of skins
6. resell them
7. profit

It is very easy and self explanatory.

Thanks for reading!

Yes, the only thing you have to do is update your avatar to a nice chick, play everyday for 10 minutes, get loads of kids make them desperate and thirsty, get skins, sell them, profit.

Funny thing how worthless OP is. He clearly got the idea from the ebook. Pretty obvious since he hasn't played CS:GO and posted this worthless thread after the dude started selling his ebook.

[Pretty bad for the guy who people consider the eWhore god of the forum](#) ??.

Do a favor to yourself and close this shit.
