Thread: [Beware - Multiple zSerity Skype and Discord Impersonators!](#)

zSerity - August 31, 2015, 8:25 am

Just warning you all to never go first to me without contract, I also rarely exchange off-site and I have at least 2 active discord impersonators and abunch more that have been created.

My one and ONLY Discord is zSerity#0224 always confirm unique ID 228559270252118017 as people with nitro can fake discord names. Please don't get scammed and always ask for a contract.

My one and ONLY Skype is WriteWave always confirm spelling is right on actual skype name.

Always check the username not the display name!
I take 0% liability if you're scammed by an impersonator.

Yeah thankfully most people will ask for a PM but there is still those odd balls out there, I'm more so posting this so that if someone does get scammed by an impersonator, they can't say I didn't warn them

My one and ONLY Skype is "zSerity.HF" which you'll also see has 1250+ contacts. Please don't get scammed and always ask for a PM.

Also I change my skype picture frequently so don't rely on that, always check the username not the display name!
