Thread: [3x GTA V's in 3 minutes.](#)

iWatch - August 31, 2015, 11:32 am

So I have a method to obtain GTA V's and other Steam games almost for free, and I managed to get 3x GTA V in a matter of 3 minutes.

Thinking of selling them for about \$35-40 or so, at least very cheap since I got them almost free using my method.

ITS NOT BLACKHAT EITHER, IT'S A GENIUS METHOD?

I would actually be interested in buying this. I remember another thread in the member auctions where the op claimed to be able to get any steam games for free as well.
