Thread: [Clipboard Logger - Super Stable.](#)

Local Celeb - June 22, 2010, 5:59 pm

This is a clipboard logger, it steals everything people Copy, which could be passwords, sources, downloads, credit cards... Anything.

I have gotten ALOT of good things with this, 9 runescape accounts, paypals, etc etc.

The server is 1/20 detected, but the Stub is FUD, And its only detected by AntiVir...

Thats the interface, all you need is a gmail account.

Please help me because i really want to use it.

Local Celeb - June 23, 2010, 1:31 pm

They need to copy two things, then it sends, and if it doesnt then you must have the wrong info,

because I tested this for 3 days before releasing.

zolja - June 23, 2010, 2:08 pm

Thanks for helping me.

Are you know how to spread this logger?

Local Celeb - June 23, 2010, 2:44 pm

The same way you spread anything else.
