If you notice in the "FAQ" the owner of the site states that it takes up to "7-8" days for the product to be made. And another "1-2" days for the item to ship.

I purchased my mousepad on 3/21/16

It is now being shipped on 3/28/16

So I assume it will be here anywhere from 2-3 more days. Will update once I retrieve item for proof.

So the coupon code is 1 time coupon or can be used a lot of times? For example today I ordered 1 mouse pad. Can I order another one and apply the coupon code again or I need to register new account?

Still looks the same when I first got it. The color doesn't fade or anything. I also cleaned it using a toothbrush and hand soap every now and then. Although, I have one side that was peeling off just a little bit and I just glued in back in. But I had this for about probably 2 years now.

Hmm you can even make some money using their service ??

Wow, this method still works? I remember finding this deal in 2008. The mousepad took forever to get to me since it was shipped from a foreign country (don't remember which, probably china.)

I'm glad to see it's still alive though. Very curious as to how they're making a profit with this.

It still works. The code brings the price of the mouse pad down to .99 cents but you have to pay the shipping which comes out to \$5 total.
