That's hiding links from guests (thanks I'll use it), I wanted the general hidden content where you enter tags and the member has to reply to the post to view it.

Thanks in advance.

Hello mate.

I'm trying to modify this part of navbar :

[IMG][http://i30.\[censored\].com/ot3wq0.png](http://i30.[censored].com/ot3wq0.png)[/IMG]

But I can't find it. I've been looking around in templates, but really can't find it. I've found how to edit the quick links etc .. But not this.

So if you could tell how to do that, that'd be great.

Thanks =)
