good on you for disputing the payment. you most likely wouldn't have gotten your money back if you didn't(or at least the chance of getting it back)

Provide sufficient proof such as screenshots of conversations, transactions etc.

Bagel - September 1, 2015, 4:21 pm

Yeah, never buy ebooks. tbh they're all shit. Also make sure you disputed as an unauth purchase.

Follow my thread, make sure you follow the instructions and MEET all required criteria

OP opened a Paypal claim which is against the Terms of Sale, not to mention I sold him the copy at an even further discounted price which I never mentioned he would receive a refund guarantee.

Furthermore, he initiated a claim for "Unauthorized Claim" which is only leaves me 3 options and none of them include granting a refund. This is your own problem to deal with as Paypal already took the funds from my account.

I highly recommend no one to deal with 1222vermtrue as he cannot follow clear instructions, is completely immature, and cannot respect terms of service.

I'm not standing on OP's side, but you're just as shady as the OP IMO.

You edited your thread today to probably remove the "refund" promise.

Why would you do that if you guarantee your ebook to earn?

Doesn't make sense.

I didn't remove my refund policy... It's still in the thread if you checked it. The OP didn't pay full price for the product and was not eligible for the refund because of this.

Anyways I went to the main transaction to try and refund and there is no option to do so. Take a look.

I'm not going to fight this dispute so OP will get his money back regardless.

This is a unfair and totally unreasonable scam report.

WHAT. i get discount but you said you give 100 percent refund i want it right now im contacting paypal to close the dispute

You know how fast you'd get limited if someone called in on what you're doing? You can't charge someone extra for a refund option. There's literally no difference in the product.
