Night Fury - September 1, 2015, 10:19 pm

Did you guys see some of the big Youtubers talking about this? I guess a lot of people took offence to this. I personally thought the skit was funny, but let me know what you guys think.

It was his most disliked Youtube video ever.

Here was his response to all the hate:

That was actually pretty funny. I think it's a big fuss over nothing. I mean, he makes a living from other people watching him do nothing but talk. Sure, there's more to comedy and television hosting than just that, but there's also more to being a good game commentator. I don't really think his opinions should make gamers too angry.

You wouldn't think so, but I can't believe the tweets that he received from big Youtubers. If you're familiar with people like Syndicate, Optic Nadeshot, or Tmartn, they were all shit-talking him or the video.

Guess that one really touched a nerve with them.

Vitani's Mate - September 2, 2015, 8:41 am

Damn look at all those dislikes. HAHAAHA

Some of the comments are fucking funny.

Jimmy is a egg. xD

Well, I guess I can understand what he's saying because to a certain degree he's right. However, watching people play videogames isn't any more ridiculous than watching any sort of talk show or listening to any sort of radio program. It's all just entertainment. This really isn't anything to get worked up about.

Red S?x - September 2, 2015, 11:50 am

Jimmy is an egg. Enough said.

SourMan - September 2, 2015, 12:13 pm

He's funny af idc what you think about the video. He kind of has a point as well even though I am guilty of doing what he's shaming lol

MrRapidz - September 2, 2015, 12:21 pm

Its funny because even streamers/youtubers hate their audience lmao. Its all about the mulah.

You can't really generalize all streamers and youtubers hating their audience, there are millions.

Dunno why people are so pissed about this though

Fiz? - September 2, 2015, 5:39 pm

This was the funniest shit I've seen in a long time, he's got 100k+ dislikes on the first vid and 70K+ on the other one, shits crazy.

AltKev - September 3, 2015, 2:26 pm

I found the skit pretty funny, honestly.

I think I found him reading off the Tweets even funnier though lol.

Dowls - September 3, 2015, 2:28 pm

I didn't find it too funny, however I think people are getting butthurt over something which has been directed at their stereotype since forever.

It's w/e if someone at your school said that, nobody would care this much.

Night Fury - September 3, 2015, 2:46 pm

Update with his most recent video on the topic. He said he's going to meet with some people who are pro-streaming. I think it'll all end fine. This has been neat to see unfold though. haha

I loved his reaction, he took the hate like a fucking champ rofl.

Big_Again1241 - September 4, 2015, 3:57 am

that was actually pretty funny. I think it's a big fuss over nothing!!!?

Duyere - September 4, 2015, 6:37 am

I thought it was kind of funny, but Jimmy Kimmel is a twat.

Premortal - September 4, 2015, 1:04 pm

Looks like he made a third video where he meets with some popular gamers. Not quite as funny as his first two videos, but oh well.

Jimmy Kimmel really is a bit of a twat. People who are familiar with him know that he likes to stir up this kind of stuff to increase his time in the spotlight, which really isn't a bad strategy for him.

Fredo - September 4, 2015, 1:05 pm

People act like that is actually his opinion, I mean it could be, but he is on TV, he needs to say and do things that appeal to an older audience.

Nas - September 4, 2015, 1:08 pm

Jimmy needs to go fuck a pigeon. On a serious note, I love Kimmel. It's fucking hilarious.

Vitani's Mate - September 5, 2015, 1:07 am

He basically takes the piss out of youtube gamers.

They make angry comments.

Jimmy responds to those comments taking the piss out of them.

More angry comments.

Jimmy responds again and again takes the piss out of them.

xuneyy - September 5, 2015, 1:22 am

Meh I don't disagree with Kimmel. Watching people play video games does sound stupid.

If you've never done it before and you hear the concept... I'm pretty sure you'd shit on it too.

Plus watching people play games isn't the entertaining part. It's the personality of the players that make it fun to watch.

Astral™ - September 6, 2015, 1:27 pm

All this drama is dumb. Gamers got way too butthurt.
