Hi guys today I currently have 2 different types of traditional Hawaiian games for sale. Each set is hand crafted by my self here in Hawaii!

Konane

Sometimes called "Hawaiian Checkers", Konane is a two player strategy board game with the objective of making your enemy unable to capture any more of your pieces. Only the brightest are fit for this game.

'Ulu maika

'Ulu maika also known as "Hawaiian Bowling" is a simple yet difficult game. The objective of the game is to roll the stone through 2 sticks a foot apart from each other at 20 feet of length with out touching the sticks. Players have 5 tries to score. The player with the most wins!

Cost:

Konane: \$15 [Includes: Konane board, pieces, and Rule book/history of the game.]

'Ulu maika \$9.95 [Includes: (2) 'Ulu maika stones, guide sticks, and Rule book/history of the game.]

Place your orders today! ?

It's really nice to see something so different on HF. I'm definitely interested! Just a quick question, is the cost of shipping included in the price of the product? I assume shipping from Hawaii is quite expensive, so I just wanted to clarify. Thanks!
