Thread: [Method to get free Steam games, over \\$15k made.](#)

iWatch - September 2, 2015, 4:47 am

I've decided to now sell this method as I've reached my goals, and it won't affect me much if two people are doing this.

Selling my private method on how to obtain Steam games for \$0.01 (basically free).

- This is a genius method.
- This is a whitehat method.

Some threads (giveaways, bragging threads) that are related to my method as proof:

I've only been doing the method for roughly a week, with about 30-40 minutes work every other day.

I've reached my summer goals, which was a dual-monitor gaming setup and an iPhone 6 plus, along with many other electronics + cash.

(Note: Those are all bought with profits from this method.)

I will be 1-on-1 teaching you the method and making sure you understand how it's done, and to make sure you're capable of doing it without assistance in the future.

Let's put GTA V as an example, this goes for about \$65 on Steam, and with my method you can easily get anywhere from 3-10 GTA V's in a matter of minutes.

(I will get 20 GTA V's later on today as proof.)

I will only be selling one copy of this, so first come, first serve.

Package 1: \$1500 BTC/Skrill/PayPal + 20% of all your earnings first week.

Package 2: \$2000 BTC/Skrill

Package 3: \$2100 PayPal

This is as cheap as you'll get it for such a profitable method, you're almost guaranteed to make your investment back in maximum a week.

Please post all questions/concerns below, or you can send me a private message.

SoCloseToToast - September 2, 2015, 7:01 am

Damn that's expensive, are you selling this for \$0.01?

He would benefit more if he would lend the method for selected few people to give the earnings they make till it pays of 2x for him (Let's say it's \$1000 ,after having \$2000 ,he'd pay him back) .

I am craving for this method,though I don't have the right amount of money he asks.

Bangerz - September 2, 2015, 7:09 am

For how much, you could get me Wargame Red Dragon then? 2 copies ofc.

Viinufry - September 2, 2015, 7:09 am

It looks like a nice method OP . Too bad I cant buy it right now .

Xcz - September 2, 2015, 7:21 am

-Assuming- this works, this price is a steal. I can vouch that there are at least 2 unsaturated methods NOT released on any forum or market that could give you anything on Steam for free, or almost free. This could possibly be one of them(Judging by the price, it probably is). Good luck with sales OP, I would post a little more proof such as an inventory or recent market purchases on Steam.

The price really is a steal, but I don't mind some extra money while I'll still be doing the method on the other hand. I'll be posting some proof containing new purchases really soon!

Hamware - September 2, 2015, 7:38 am

Looking like a good method, price seems reasonable especially with what you can make from it. Can this be any games?

Yes, any games at all. The reason I've been doing mostly GTA V is because it's a popular, and easy to sell game.

In my honest opinion, my price is almost too cheap.

Before dealing, make sure to check his profile and rep.

I'm still awaiting that "refund". He has scammed tons of people with his "hacking service". I advise you to deal with caution and he may be on a scamming spree.

Example:

He just talks his way out of it

Both "reports" are invalid and they've both said they didn't want a refund, it even says on the threads.?

Not to sound cocky, but I know the feels of not having the required investment when an once-in-a-lifetime opportunity is right ahead of you.?

Well I want my refund and you said 4 days. It's been 2 weeks.

One of them violated my 'Terms of Service', which clearly stated he/she was not entitled to a refund if done. And the other one, I have no affiliation with - so it is indeed not a scam at all.

SoCloseToToast - September 2, 2015, 7:54 am

So its not \$.01 at all lol. Jesus fuck I'm broke.

Flyrect - September 2, 2015, 9:47 am

I can tell you straight up that you won't ever find this method on the web as it includes stuff that I, myself created.

TerenceMcKenna - September 2, 2015, 10:23 am

I'd be willing to throw \$500 for this method.

SoCloseToToast - September 2, 2015, 1:10 pm

Fucking milking l33ts Jesus fuck man. Not cool.

Novex - September 2, 2015, 2:26 pm

OP is a tard, he has many scam reports open.

SIM-341126 - September 2, 2015, 3:19 pm

Is there a possibility of this being patched up soon?

Kavalli † - September 3, 2015, 1:04 am

I'm just lazy.

eoNe - September 3, 2015, 5:32 am

Give me vouch copy of gta v and i will see xD

Clongite - September 3, 2015, 10:36 am

This seems pretty sketch. The only way I'd do this is if you gave me the method and we form a contract saying that I pay you 100% of earnings for x amount of time or until I give you x amount of money from the method. PM me if you'd like to do that, it's pretty safe for both of us.

SIM-2223238 - September 3, 2015, 12:08 pm

You told you would sell it once, you sold it to multiple people.

They both got paused due to threats/impatience, as you can see in their "disputes".

K lol, why would you sell a method that can easily profit you 10k / week using g2a?

I'm not able to verify my account at G2A, nor do I want to wait 7 days(?) for withdrawals.

st0rmii - September 3, 2015, 4:08 pm

Proof it that this really works.

Give me 10 GTA V Copies, I'll pay you \$2 and I'll vouch that this really worked.

Otherwise I won't believe this.

Btw: This HAS to be greyhat/blackhat as you get these games for nuts. So, I think it's about scamming or db leaking or whatsoever

'OverSight - September 3, 2015, 4:43 pm

I swear to god if you guys actually buy this, you're autistic. He even asked me to remove my posts or I wouldn't get a refund LOL.

As the good Samaritan I am I will post the conversation so you guys can judge.

This guy is literally trying to bank it and ready to leave HF.

Over 15k made? Same amount as your Package 1. Seems legit, and nothing is free remember that.

Keith Cozart - September 3, 2015, 5:39 pm

bruh that say \$1.5k xD?

Anyway mah nigga legit

Bruh glws <3

shmoz - September 3, 2015, 6:50 pm

Honestly, if we had a way of knowing the method was legit, the price would be more than worth it. But it's way too risky a purchase as it stands.

This should be solid evidence that it's a scam. "I need to get these sales to pay you guys back." If you really had this method, you'd have cash on hand to pay them back. There's no doubt about that.
