Thread: [Win skins by playing CS:GO simple method !](#)

lavdrimbossi - September 2, 2015, 8:58 am

Hello there HF

Hello , there HF Users i found a way of making skins while playing , this is very efficient because you dont just waste your time you even get paid but not that much but if you are active youll get to many prices.

All you have to do is explore the site if you think its a suspicious site , (scammers or something similar) so than you decide to click my referral link or to go with nonref link.

I know the question will be why do i click your referral link its okay you can either click it or not but after the first game you win 50 points for geting invited, why after first game ? because they want to be aware of fake accounts !

So after you reach 15 level or more youll get paid for every game just like this in the past it was from level 1 but they did this to stop skins hunters.

Have Fun Follow the steps !

How to:

Step 1: Open Chrome

Step 2:

Referral link for the 50 coins revenue after 1st game,nvm you can go with the nonref link if you want to: <http://zengaming.co/r?zen=37063>

Nonref link no revenue but if you want to you can use the nonref: <http://zengaming.co/>

Step 3: Fill the register boxes with your username,password,emal,avatar and etc.

Step 4: Choose Europe or America

Step 5: Link with steam

Step 6: Play your first game get XP + the 50 coins if you joined with a ref link

Step 6: Have fun , play hard get skins

Short Describe (How it actually work)

So if you join with a referral link you do give me 50 coins but you do recieve 50 coins after the first game you play , if you join without referral you wont get 50 coins but i won neither ! So if you are good at csgo you can earn skins while playing csgo isn't that good ?

Q: What can i do with the Coins

A: With the coins you can buy Skins

Q: Why do i have to join your referral

A: My referral link gives you 50 coins after first game and gives me 50 points too

Q: How do i earn skins

A: You can earn skins by playing but that will be availible once you reach level 15,Also you can earn skins by inviting friends

I hope this method helped you guys a little Pirate
