Thread: [Write me reviews and get paid. Long-term partnership and \\$ for you!](#)

mrdr - September 2, 2015, 2:49 pm

Hey guys,

The job is fairly simple. I need accounts created each day so that these accounts may leave reviews on products. You will be paid generously.

Requirements:

I am looking for someone who is active, fluent in English, and has access to a computer that allows them to connect to a VPN/VPS/proxy so that they may leave reviews in localized areas around the United States.

I will be paying for the VPN/VPS/proxy and semi-private & private proxies. However, I expect you to know how to use and work your way around them.

I will also be paying you for each review you leave.

I want to leave about 2-5 reviews per day, every day or so. So this will become a long-term relationship with a lot of income coming your way if you do the job correctly.

If you are interested, drop a PM or leave a message.

Thank you.

You mean must have a good grammar and know about those products too? or can copy and paste from somewhere else??

The review must be posted from USA only? Or specific usa location?

Coz some vpns sold here only got a few locations in usa.

If reviews can be posted from worldwide would be nice.

Thank you.
