Thread: [Free \(easy\) guide on how to install Kodi \(Android TV\)](#)

UTRONEX - September 4, 2015, 5:25 am

Thought this was the best place to post this :)

Browsing around HF the last few days I've seen a number of threads made by people having trouble installing Kodi (Android TV) or generally not knowing how to get all the addons on.

It can be difficult at first when you don't know what your doing so I've decided to make this guide as I've got quite a lot of experience when it comes to Android and in particular Kodi.

I'll keep it as simple as possible but if you have any problems please feel free to drop me a PM or reply to this thread :)

Now, the install I'll be talking you through is on Android. However, nearly all installs are the same. You may have to use installers on different platforms (for example, you need an APK installer from the play store on Android).

1. Download the relevant TVMC software for your device from <http://www.tvaddons.ag/install-kodi/>

3. Complete the install process by simply clicking and waiting :)

[\[IMG\]http://i1208.photobucket.com/albums/cc369/Sniper_/F52E1342-77FF-42E3-A02B-BA8630241F36_zpsaekimkxn.jpg](http://i1208.photobucket.com/albums/cc369/Sniper_/F52E1342-77FF-42E3-A02B-BA8630241F36_zpsaekimkxn.jpg)[/IMG]

[\[IMG\]http://i1208.photobucket.com/albums/cc369/Sniper_/B084FCB0-F763-4817-9089-F2FA1338A644_zpsu67vddcs.jpg](http://i1208.photobucket.com/albums/cc369/Sniper_/B084FCB0-F763-4817-9089-F2FA1338A644_zpsu67vddcs.jpg)[/IMG]

4. Return to the main screen and all your apps will be waiting for you.

It's simple enough but some people have trouble when first doing it. Hopefully this guide will of helped you :)

Any help you need at all please feel free to ask!

You can install this on any Android/ Linux box, phones, tablets, laptops, computers, Raspberry PIs, Apple TV and loads more.

If your after any specific addons for special content like anime drop me a message and I'll find out what repository you need to install.
