Thread: [Monetizing Inventory - Anime Streaming Site](#)

finalheartsmix - September 4, 2015, 5:42 pm

I currently have an anime streaming site which gets about 15-25k Uniques everyday and am struggling to find an ad network that will pay decently.

Since it's an anime site adsense is out of the question, I was wondering if any of you guys have recommendations.

sign up as an affiliate on alibaba and sell anime related products. create banners or a store on your site.

Alibaba's affiliate program is better than amazon and ebay

Or you could use Adfly script to convert all your internal link so user have to ad before see the video...

Why not google ads?

Idk why people complain about them, they pay pretty good.

I believe its copyright or NSFW and google doesnt support that.

OP you could try CPA Networks or Infolinks or some kind of affiliate.
