Thread: [Crack Any Account - By Insight](#)

Hinch - September 5, 2015, 6:45 am

You no longer need to purchase a shitty gui cracker, that is literally a re-themed sentrymba. Here is the guide of cracking accounts including tools + combo-list + proxies

[Step 1]

First we are going to download the tool sentrymba this will be in the bottom of the thread, we will also download the configs i included to some sites, and i included 1 combolist. Once downloaded we will have to open sentry mba.

[Step 2]

Now we need to load up our "Snapshot" this is a set of instructions these can also be called configs. These tell sentry mba what to do, in a future tutorial we will explain how to create your own. We are going to want to click on general on the left and then press load settings, this will open a pop up where we can locate our snapshot.

[Step 3]

Once you have located what config you want to use we are going to want to add our combolist. This is the combinations of email:password or username:password, this will vary depending on what site your cracking. (Click the small folder icon to locate your worldlist.

[Step 4 (Optional)]

This step depends on what config you are using. There are sites such as origin and psn that are proxyless meaning you dont need proxies, but sites like netflix now need proxies. So we are going to head over to where it says proxy list and click on the folder icon and locate it

[Step 5]

This is where the cracking starts. We are going to want to head over to progression, and we need to set our bots. The number of bots depends on what site you are using. The general rule i follow is if its proxy use 250 bots if its proxyless a safe bet if your unsure is 10 bots.

Eg

Psn proxyless use 5 bots

Origin proxyless use 50-80

Netflix Proxy use 250

[Step 6]

Now we need to press start in the top corner. You will receive a small pop up make sure you are using the correct site and make sure the correct wordlist is loaded, and reset the wordlist position then start the bruteforcer engine :) you have started cracking accounts.

[Step 7]

Enjoy there are your cracked accounts, now decide what you want them for :).

Combolist: Had to remove now allowed

zeroxi - September 5, 2015, 6:46 am

Damn Another HQ Tut by Hinch! thank you for this man!

SirZio - September 5, 2015, 6:54 am

Another HQ tutorial from Insight once again.

Good job Hinch!

its not allowed i belive do some research and you will find easily

nuclearcmd - September 12, 2015, 5:15 pm

Great, I was about to buy those crackers, and you just told me its sentry-mba just a different UI. Thanks, always high quality posts!

The general rule i follow is if its proxyless use 250 bots if its proxyless a safe bet if your unsure is 10 bots.

Better fix that as everyone who follows this is gonna be raping that site.

(Sep 5, 2015 09:56 AM)into Wrote: [\[CITE\]](#) Would this work on sites that require CAPTCHA on login? Sentry does not support ReCaptcha. Only normal text captchas and to do that, you need to use OCR.

Nope.

SIM-1096442 - September 12, 2015, 5:36 pm

Can't tell if OP is a troll or just retarded :D:D

Quote:if its proxyless use 250 bots really bruh?

?Florida - September 12, 2015, 9:17 pm

thanks so much man. I really do appreciate it. ill be trying this out. :)

Bangerz - September 13, 2015, 12:42 am

Thank you for your IP and tutorial that was posted trillions of times .

And why dafak would you use 250 bots on aa fking proxyless config.

Hinch - September 13, 2015, 4:24 am

Damn thanks for following my fuck up whilst typing I'll fix it

LilHackers - September 13, 2015, 1:22 pm

Great thread Hinch! Very HQ! Keep it up mate, love your threads :D

Cheers

It's not about getting banned or not. It's about reassuring the site won't patch the URL you're using. People who use a high amount of bots is why things never last that long.

Also, if you're using that many bots and not using a VPN, you're just dumb.

I have been using the same config for a year now and no problem with origin

and alot more.

copy & paste copy & paste copy & paste

that has nothing to with that get some cojones and stop talking bh.

Hinch - September 13, 2015, 3:09 pm

Please show me any copy and pasted info. I will pay you.

T???? - September 13, 2015, 3:11 pm

Did you look at the threads at all? Its just the same shit

Live5 - September 13, 2015, 4:58 pm

nice tut, sentry mba is very cool
