Personal: Hi guys. I'm looking to apply into Echo again as I am an ex-member that was removed due to me being inactive (I believe?) during a vacation I took without notifying anyone. Regardless, I hope to be considered as a potential candidate for the group, and would be extremely motivated to help contribute and perpetuate the current reputation of the group.

My interests include Business, Gaming and any form of interesting discussions. If accepted into the group, I hope to contribute significantly to the gaming section, as well help around with any issues to the best of my ability.

Thanks.

Cheat format (Optional questions that may or may not improve your chances of getting in)

1 point - BDK or 300/600: 300/600

1 point - Matt AH is on what: I have no clue.

1 point - Who the fuck is Asterea? Pretty sure he's another high up member/leader of Echo?

1 point - Who's the clout lord on HF? Orchid

1 point - Coke or Pepsi: Coke

1 point - Ass or Tits? (For Bull / girls: Dick or pecks?) Ass

3 points - You have a button that gives you \$50 everytime you press it, but 1000 random people die each time you press it, do you press it, and how many times? No, I don't press it.

3 points - Somebody adds you on skype threatening you / shit talking, what is your response? Tell them to suck me off and ignore them.

3 points - What's a question you think should be added onto this? 'May I have a vouch copy please sir?'

5 points - A friend tells you a valuable secret, somebody offers \$500 btc for this knowledge, do you take it? Why? No, because I'm not a shit cunt who is willing to lose a friend over \$500 BTC. Also, if someone is willing to offer that much for the secret, it's pretty obvious that it'd be worth more than that. Why not keep the secret, implement it, and make more money off of it without having a bunch of others knowing what it is.

Thanks for taking the time to read my application,
Maze

3 points - You have a button that gives you \$50 everytime you press it, but 1000 random people die each time you press it, do you press it, and how many times?

I could do with a good \$50,000 aka 1,000,000 randoms dying. I could even go up to \$100,000. I don't want to kill off the planet because I still want money to be useful but I don't want to leave tons of people alive. I am simply trying to benefit myself and the future world.

3 points - Somebody adds you on skype threatening you / shit talking, what is your response?

Cry a little, call them a cunt, and then block them.

3 points - What's a question you think should be added onto this?

"How big is your e-penis in inches?" Automatically reject anyone under 12.

5 points - A friend tells you a valuable secret, somebody offers \$500 btc for this knowledge, do you take it? Why?

Depends how valuable this secret is. The value to one person can be the opposite to another. I would consider doing it if the secret was not valuable to me. Then I would probably hook the homie up with \$250 for telling me his secret.

Is you with the shits: Depends. Who's asking?

Skype name: PM me for it.

Who the fuck is Asterea?: Nothing more or less than a noob.

Who's the clout lord on HF?: I'd say you (Haydraz), but I may be just kissing your ass.

Coke or Pepsi: Pepsi. It's for the better good.

Ass or Tits?: A big, round, juicy ass.

You have a button that gives you \$50 everytime you press it, but 1000 random people die each time you press it, do you press it, and how many times?: I'd press it a few times, if I were in a bad financial state. The population will make up for the loss of people. (What would the cause of death be, by the way?)

Somebody adds you on skype threatening you / shit talking, what is your response?: "I'm gonna cut you with my pencil sharpener."

What's a question you think should be added onto this?: What's your favorite emoji?

A friend tells you a valuable secret, somebody offers \$500 btc for this knowledge, do you take it? Why?: If they were a good friend of mine, no. If they're pretty low on my list of friends, probably yes.

I probably failed again, but at least I had the opportunity.

Since my opinion is that the world would be a better place with a 90% reduction, this would be a

golden opportunity for me. The world has about 7,200,000,000. Therefore, we are looking at an ideal reduction of about 6,480,000,000. That means I would press the button 6,480,000 times and come out with \$324,000,000. This is a total win/win situation. Thanks for the semi it just gave me.

What the fuck did you just fucking say about me, you little bitch? I'll have you know I graduated top of my class in the Navy Seals, and I've been involved in numerous secret raids on Al-Quaeda, and I have over 300 confirmed kills. I am trained in gorilla warfare and I'm the top sniper in the entire US armed forces. You are nothing to me but just another target. I will wipe you the fuck out with precision the likes of which has never been seen before on this Earth, mark my fucking words. You think you can get away with saying that shit to me over the Internet? Think again, fucker. As we speak I am contacting my secret network of spies across the USA and your IP is being traced right now so you better prepare for the storm, maggot. The storm that wipes out the pathetic little thing you call your life. You're fucking dead, kid. I can be anywhere, anytime, and I can kill you in over seven hundred ways, and that's just with my bare hands. Not only am I extensively trained in

unarmed combat, but I have access to the entire arsenal of the United States Marine Corps and I will use it to its full extent to wipe your miserable ass off the face of the continent, you little shit. If only you could have known what unholy retribution your little "clever" comment was about to bring down upon you, maybe you would have held your fucking tongue. But you couldn't, you didn't, and now you're paying the price, you goddamn idiot. I will shit fury all over you and you will drown in it. You're fucking dead, kiddo.

Where are you from: The hood, ATL Georgia

Is you with the shits: Yes, downtown ATL waddup

Skype name: (Message about how popular I am goes here) PM for it :*

Personal: I'm a 15 year old teen looking for some people to chill with online and play video games, do business with, chill, and just have some people to laugh with. I play baseball (1st & Pitcher), sophomore in High School and part time baller.

/-----\

BDK or 300/600: B D K ALL THE WAY. (Fire Emoji)

Matt AH is on what: HackForums or bill cosbys bed

Who the fuck is Asterea? What do you mean? Oh, oh

Who's the clout lord on HF? Hell if I know (sry)

Coke or Pepsi: Trolling or not? Coke.

Ass or Tits? ASSSSSS all the way.. No doubts.

You have a button that gives you \$50 every time you press it, but 1000 random people die each time you press it, do you press it, and how many times? No, I don't press it.

Somebody adds you on skype threatening you / shit talking, what is your response? If they arnt just talk, I'm fucked tbh, my IP leads right to my house.. ? But id act like im the hardest mother fucker on this damn planet before I go out.. What's a question you think should be added onto this? Bapex or Rolex

A friend tells you a valuable secret, somebody offers \$500 btc for this knowledge, do you take it? Why? In all honesty, I wouldn't take it. I'm about making money and shit, but trust is a whole new level to me.

Favourite kanye west album? None, but if I were to pick one i'd pick Graduation because I used to be addicted to "Stronger"

Is you with the shits?

· Maybe. It's classified.

Skype name?

· Now you have an excuse to PM me. ;)

Personal

· Amateur-"gamer" going through her 20th summer. Bikes her way to university, claiming to be some sort of medical laboratory technologist. But basically what she does is to put needles in people. She's awfully fond of that. Amazingly fond of this website, yet until recently has stayed quite lowkey. Woken up to become the hero HF deserves. Or maybe just to fuck around and give her opinion on shit. Wanting to bond with more members. Become a part of something bigger. Likes to hang out on HFs TinyChat room.

BONUS · Funnier on odd dates and specialized in dad-jokes.

Coke or Pepsi?

· Coke. And yes, you can taste the difference.

Dick or Pecks?

· Dick. Where would I put his pecks? ~ NB · Ass!

[...] Do you press it, and how many times?

· Make it a hundred and I'd consider it. But for \$50? I'm not that broke.

[...] What is your response?

· *nose exhale*

What's a question you think should be added onto this?

· "What should Kanye West 3rd kid be named?"

[...] Do you take it? Why?

· No. Because loyalty.

Favourite Kanye West album?

· Even though I'm not fond of Kanye, I'd say Graduation or My Beautiful Dark Twisted Fantasy.

I began using my computer intently roughly 8 years ago, and I've been on it every since. I am currently learning Python and Visual Basic. A little about myself, I pride myself on having a great sense of humor, and staying HQ. I'm always available to play games, help out other users, or just chat. My favorite section of the forum is the SRPP section, as I am very interested in the majority of the topics located there.

Regulus - October 12, 2015, 2:07 pm

My boy Flacko sent me to haydrazs here and told me to apply so here we go.

Why do you come on HF?:

The reason I come to Hackforums is because this is the only Forum I've ever been active on and also because I've met a lots of new Internet friends here.

I'm active every single day on Hackforums and love to read threads and help out people if they need ever would need my help haha.

Hackforums is like a part of my life, I come here to lurk and even when i'm feeling down i'm on HF and mostly see some threads that cheers me up immediately.

What more can I say. Hackforums will always be the #1 Forum for me and I'll forever stay active on here for sure. <3

Why do you want to join Echo?:

I've seen many Echo members around HF and I gotta be honest when I say most of you seems to be some very high quality and nice members.

And that's something I want to be a part of.

Maybe make some new friends, play some games and just talk in general.

I'm very active and I'll always be.

Age: 21 Years Old

Country: Sweden

Some stuff about myself:

Oh boy this is the hardest part haha. Oh well, I'm a 21 Years old guy from the beautiful country Sweden, also the country of the beautiful blonde girls. I'm a very polite and nice member, and when I say nice and polite I mean nice to everyone, even to the people that hates me.

I like to send positive vibes instead of negatives because honestly, who likes to be negative all the time?

Music:

Some members on here also knows i'm a EDM producer and I don't feel like producing is like a hobby for me, it's my #1 passion and I live for it.

Music is something I'll always keep doing and love it no matter what.

In 2014 I achieved a nice goal and I gotta say i'm proud of it. I actually won one of Basshunters Remix Contests, and i'm pretty sure not everyone knows who Basshunter is but just search for him on YouTube and i'm sure you'll recognize him. :)

Movies?:

I'm a guy that just loves to watch movies, and a lots of movies.

I mostly prefer the genre Comedy to be honest but I watch other genres as well, don't take me wrong hehe.

Gaming?:

I'm also a little bit into gaming but not to much. I mostly play Counter Strike 1.6 | Left 4 Dead 2 | GTA IV.

That's pretty much all I play but if someone wants to hit me up to play something else i'm always down :)

Here's some contributions and achievements threads I've made on HF:

Subpar - October 19, 2015, 12:17 pm

I use HF for the pursuit of knowledge, and to meet like minded individuals across the Technology genre. I have learned tons of information from this site, as well as individual members. I have shied away from joining any of the "Official" groups until now seeing as all the Unofficial groups are incapable of progression and sticking to solid topics without acting like children. I'm the local IT guy so to speak in my local community which spreads across 4 different small towns (10k people each) and have been for about 10+ years.

I am from the US, and my Skype handle is Qburt024

I look forward to hearing from you guys here at Echo, have a great day.

9/11 happened on 9/11 meaning if you take 9 minus 8 you get 3 ones which you can then reorder to turn into a triangle which obviously means Illuminati confirmed and the twin towers are straight like the sides on a triangle and jesus's nose is shaped like a triangle which is more proof the Illuminati is involved. So if there was no Jesus there wouldn't have been 9/11 because there wouldn't be a Jesus nose to prove the Illuminati is involved.

Why do you use HF?

Joining HackForums was a fluke! Actually a Google search landed me here. But, it was love at first sight. You see, you can very well identify a well moderated forum in a short time span.

The favourite thing I like about HF is the flood of knowledge that flows here that gives an opportunity to LEARN & EARN. A vast community with open hands, a ton of people willing to be friends and very well know how to carry forward the friendship. So, for me it's the LEARNING & EARNING one can get in HackForums is the best that attracts me. Right from the year 2011 (my joining year), there are countless moments that I have learned one thing or the other from this awesome community!

Love you HackForums! ?

Your location: India

Your skype name: Would like to share the same in PM.

Some stuff about you: I am B. Tech - Computer Science. I have been contributing to the community. It can be in the IT section, suggestions for improving HF, Giveaways, In lounge chatting with my friends, Gaming and last but not the least in the Monetizing section with some unique earning methods. I earned L33T, UB3R & 3PIC by winning competitions only! I can easily say; HF is my second home now!
