I'm looking for 3 people who don't mind going to the dark world. I have the experience and skills to make money. You just need to trust me. I understand if you're like "omg another group", but what you don't understand is I actually have the knowledge to make 1000s a day and have been for awhile.

Requirements:

Spreading Knowledge, not shitty slaves either, Tier 1.
Some kind of RAT Program, no shitty free stuff. I can refer you to what I use
And financially able to make an investment if needed.

Contact me on Jabber for more info, if you want my skype PM me for it.

Jabber: serion@darkness.su
