Thread: [How does craigslist method work?](#)

Can anyone explain to me how craigslist ewhoring works and is it effective?

In my opinion the Craigslist method was the worst to me. So much time wasters, i don't recommend you try it. kik method is better

Basically the Craigslist method is where you post on the casual encounters w4m section then you get a bunch of email replys. 99% of the time was just guys who want to fuck in real life they don't wanna buy your pics. For me the experience was horrible no one wanted to buy, they all want to meet.

TL;DR: Kik method is much better

Well, if you didn't know that, the point of the CL method is to convince them to pay you an advance before meeting you in exchange of some pics or videos.

I have tried the CL method and made an average \$20-\$30 a day with MUCH effort and skill. Not recommended.

Haven't done it in years but it used to be good. I think using Kik is much more efficient.
