Manga is extremely good and I do recommend it. Anime seems like it will probably be great however there is only around 50 chapters and the content does go by quick. Hope they don't try to stretch out a few boss battles.

Tsu-kun - September 7, 2015, 7:36 am

I didn't like it, I've only watched the first minute. I said I dislike DB before, this one feels exactly the same.

-1 anime from this season's anime series.

Duyere - September 7, 2015, 9:05 am

I am excited to see how this anime turns out. The mediocre looking OP will be what I think makes this great.

St0rm - September 7, 2015, 6:31 pm

Anyone has to give this a chance. Like this is anime starting off even is just amazing. The manga has a shitload of epicness as well.

Also the main character looks like a grown up Caillou.

Well there is a lot of story he can get into and I really want to see Caped Baldy get into the S class one day. The current arc is just slow but hopefully it will pick up soon.

Seen the pre release of the first episode. It's really good, but the Manga is much better. I'm usually more of an anime guy then manga, but the Onepunch man manga is pure gold.

Etherion - October 23, 2015, 7:04 am

I watched these 3 episodes and god, I really like it, it's funny as fuck. Sadly I don't think we can expect a good plot or story, but it's really good as a comedy.

Just me or is this one of the few anime that is actually just as good as the manga?

Tsu-kun - November 2, 2015, 5:18 am

MIYANO MAMORU BITCHES, YEAH!! I hope the character itself isn't a douche though..

And guys! A lot of people seemed to not notice but don't you think the one who made that hero shit is the big chinned brat from the first ep? Maybe his father idk

But man I feel like 100 more episodes of this anime isn't fulfilling, it's really something.

Pretty much what Cortz said... With just the 5 episodes, they already went through quite a bit of the content. The authors are very slow at writing OPM.

So far into the manga, no, he does not. His toughest opponent in the manga only needed 1 serious punch to end. Although there are 80 chapters, fights have amazing multiple panels showing off just one move so the story hasn't really progressed. On top of that, Saitama is still known as the Class B in the public so not many people think he is powerful except a few (i.e. Genos and a couple of other characters who will be introduced soon). Didn't want to spoil for people so I kept my reply as vague as possible

Went again to check, no it's not the one played when Tornado appeared (even though that one is fucking epic too), but instead a similar feeling soundtrack. I guess it plays when something powerful/mysterious is mentioned..?

Can't have a very action-heavy episode every episode. They need to develop some background information, plot, and other characters.

a monster with a one punch , there is nobody to witness that , totally make me feel sorry for him and then i realize how awesome he is being hero just becoz he wants to and not becoz of all praise a hero gets and all other shit.

He genuinely wants and likes to be a hero but he does want some recognition. After all, he is the one that brought up the topic of why nobody knew him to Genos. Also, he does have witnesses, they just don't believe it's him that is responsible ("Impossible, he's just a C-Class").

love the manga, started watching the anime loving it so far.

darkinho - November 27, 2015, 2:58 pm

The history is amazing haha, I just recommended a guy to watch/read it.

I like the premiss that he is already at the TOP level, usually animes are like progressing, but OP-man is already at the top, and way stronger than everyone else

Cursed Power - November 28, 2015, 12:02 am

This fucking anime is so awesome, today episode 9 will air, few hours to go, cannot fucking wait <3 Genos vs Sea king and ofc Saitama will show up, it'll be so intense, also Norgami and K return of kings episode 9 just aired few hours ago, watched them.

Manga seems to be slower compared to anime every week. Took forever for Sai to reach the sea king in manga, that's why I always have bad feeling that it would take until the 10th episode for Sai to one punch the king lol

I dropped it after the first episode.

I didn't enjoy the humor.

neightworks - November 30, 2015, 7:18 pm

Plot is pretty cringy tbh.

The guy who convinced everyone he wasn't actually strong and the rest of the people were weak made me want to rip my eyes out.

I understand that was the point of him, but fuck you Japan, making the worst characters.

This show is a constant roller coaster even though I read the manga. Watching the anime adapted version of One Punch man is freaking amazing. The animations are great and the characters are portrayed even better than I would have ever imagined. 10/10 Anime -IGN Would not watch it again.

Manga is extremely good and I do recommend it. Anime seems like it will probably be great however there is only around 50 chapters and the content does go by quick. Hope they don't try to stretch out a few boss battles.
