Thread: [Anyone can Malware scan site?](#)

TheWhiteHatter - September 7, 2015, 3:21 pm

Hello can anyone malware scan this site?

www.myloladmin.tk <- Post results when finished.

I really don't understand your goal...

Why do you want to scan this site? Most likely a fake/scam since it uses a free domain *.tk

But why ask other people? Can't you just use the same websites as everyone else?
