Thread: [Python multitool](#)

??yp?? S??? - September 9, 2015, 12:20 pm

I am proud to release my first python program.

He comes with:

- IRC Spammer
- Doser
- HTML Scraper
- Text to ASCII art.
- Admin page finder

Get the code at:

<https://github.com/Wikiwiki007/pytoolkit>

Please write feedback and suggestions in th github issue tracker.

I really need somebody to help with readmes :/

Thanks to jigglemaster.

Your code is really messy. Your indentation is messed up, you import the same modules more than once, you have imports half way down the script, etc, etc...

Oh ok, feel free to make pull request if you have time!

I will try to clean that up...
