Vouch for this crypter, has been under beta for a while, going to be released soon.

Tokyo - September 10, 2015, 3:36 pm

Nex is a great businessman, good luck with sales!

Zeptum - September 10, 2015, 4:44 pm

Good luck with sales, I know that this is quality, looking forward to the official public release.

©**Ratatouille™** - September 10, 2015, 5:09 pm

Hello good luck for you sales

I can get vouch copy please ? ?

pringi - September 11, 2015, 7:52 am

is this like "your" other crypter (debug crypter) which didnt work a single day without bugs? and the fake vouches are real in here.

Angel Beats?? - September 11, 2015, 7:53 am

(Sep 11, 2015 07:52 AM)pringi Wrote: [\[CITE\]](#) is this like "your" other crypter (debug crypter) which didnt work a single day without bugs? and the fake vouches are real in here.
This is coded by sanch and went by the name "Haste Crypter" before.

Wardow - September 11, 2015, 9:37 am

(Sep 11, 2015 07:52 AM)pringi Wrote: [\[CITE\]](#) is this like "your" other crypter (debug crypter) which didnt work a single day without bugs? and the fake vouches are real in here.
Debug Crypter is perfectly working.

Please post proofs that it isnt working.

ShikTik - September 11, 2015, 2:16 pm

(Sep 11, 2015 07:53 AM)Angel Beats?? Wrote: [\[CITE\]](#) This is coded by sanch and went by the name "Haste Crypter" before.

If so then it won't work with netwire (crashes netwire on startup) and can't be used with LL unless you use startup through crypter instead of rat (NEVER ADVISED TO DO, common knowledge)

Wardow - September 12, 2015, 9:29 am

I will not be the coder of this anymore, leaving every project with Nex.

ShikTik - September 12, 2015, 12:01 pm

OP should warn people on original post that this crypter does not work with netwire (crashes on startup) (making this assumption based on the fact that hastecrypter is what this crypter is made from, and haste does this)

Also, it doesn't work with LL unless you only use startup via crypter and not rat (Never Advised, common knowledge)

Wardow - September 13, 2015, 3:30 am

(Sep 12, 2015 12:01 PM)elvy666 Wrote: [\[CITE\]](#) OP should warn people on original post that this crypter does not work with netwire (crashes on startup) (making this assumption based on the fact that hastecrypter is what this crypter is made from, and haste does this)

Also, it doesn't work with LL unless you only use startup via crypter and not rat (Never Advised, common knowledge)

It can always be modified for it to work, but anyway i am not a part of this project anymore.

Nex+ - December 12, 2015, 10:18 am
