I have created this site and all are unique content .

This mean it's not copy share post..

It's basically for free premium account

This isn't for free? When i try to download the accounts i get a survey. And that cost money for me. So isn't free.

Hello sir..

All of its accounts are unique.. That means it's not shared .

It's better to get free rather then paid one

You still gotta pay. Just like what Frankey said...

I think the most people on HF won't even bother to start a survey, so don't try to advertise your site here.

What lol your asking people to do surveys for 20 shared Netflix accounts LOL.

I bet I can crack 100+ accounts with one list in few minutes...
