Just bought this, method is actually working and I renewed my old spotify acc. Thank you very much, big vouch.

I also have to specify the method is legitimate and you're not actually doing anything illegal. I wouldn't use it otherwise.

i didnt yet tried it for free.

but i tried this

1. created free premium from spotify
2. after my account was expired, i just renewed it by my money.
3. after my account was expired, i just renewed it by this method.

you can try experimenting too. But i think this one will work multiple times to renew, i just don't know, im not sure about it.
