Do you want more followers?
Would you like to build your stat Instagram?

I figured out a good method for getting a reasonable amount of followers, takes a little bit of time to set up.

Ofcourse this won't get it you (for example) 4k follows a day but this method is surely useful and good to try out. More time you spend on this method, more follows you will get.

Want this? Post here and I will pm you!

This open to all members!!
can you please PM me the method

here it is for everyone to view,

Ok,

More time you spend on this method = more followers

Goto appstore -> search followers jackpot (should be the first one that comes up -> install it

once installed sign up a random instagram a random one! -> you should get some bonuses and bonuses are useful and after you redeem the bonuses spam click follow and each follow you do you get a free spin, match 3 you get like some follower coins (depending on what items you match) match 4 and you get the max prize for that item. There's an item if you match 4 times you get 100k followers! (followers jackpot, get it?)

Once you got a decent amount of follower coins, add your actual account at the top left corner of the screen, once added your actual account go to redeem followers and redeem your followers (on hm follower coins you have!)

Boom! Watch your insta grow

Just to review this method it's pretty easy but wasn't efficient for me. I would get about 1/2 or less of the followers that I ordered not to mention only 1/3 of them stayed in the end. Also to make this a even better method use a jailbroken phone and a auto tapper. With 4 accounts you will almost never run out of things to follow.

Thanks for the share OP but it wasn't worth it to me personally.
