Tell them smthng like this: hm, lets make it more personal bby, let me write your name on my body
<3

Then just open GIMP or PS and edit their name on one of your ewhores pics. ?

Lot of them ask for a 3 fingers up pic or touch your tongue with a finger.... and if you try to change the subject of the proof pic they say that you're a fake...

I had one guy yesterday that wanted 2 fingers aswell. I had 200 pics of my ewhore but not a single with 2 fingers up, so i saw that she was posting on reddit, i went to her profile and checked every single post trying to find thoose 2 fingers. I found this picture <https://i.imgur.com/sOJ3seL.jpg> and the guy believed me and i got 20€ :D
