Color : Red / Glossy

Name : Royal

Image : Crown with it

Example ;

I want something like the image provided, but in red, glossy and high quality.

This is for a forum, please help.

If you can just make the Royal words like shine more and get rid of the brownish red like going through the center, that'd be a lot better.

Changes are not that visible, only shadow added. If you want to different one, i will try to do.

Edit: Sorry for image links, 50 posts error.
