Free Coke Zero 500ml (UK)

You can pick it up from Asda or Co-Op

Change it from SMS to email then just use lots of throwaway emails to abuse it, you might need to use a proxy if you want to abuse it and get loads.

Are you sure it's UK only? I don't see anything saying they don't work in the US. Honestly it may just be "open" to a few UK countries, but could work everywhere

iNarrateYourLife - September 16, 2015, 3:08 pm

Please put UK in the title, us Americans don't like our dreams crushed.
