Looks pretty good except for the image beeing a bit of bad quality.

Looks good, expect the vertical line on the bottom.
I would prefer a wave icon instead of the "x".

You should look for another image to use or hire someone to take a few. Your current is low quality, pixelated and looks a little stretched

Thanks for the feedback guys, On the final one that I printed out the background image was very high quality, I dont know what happened to it here. Maybe because i reduced the size by 50%
