Kik's One year feedback!

.....
.....
1 Year full of fun, Amazement and what not! This day marks my 1 year Birthday on Hackforums, The best year i have lived yet.

.....
What Is hackforums for me?

It certainly is not just a forum, It's a Second Life of mine that a few people know about

HF made me mature, Made me learn what responsibilities are, Gave me a Business sense Which will be very helpful all my life

By heart, I give a thanks to everyone on this forum whether we have ever talked or not.

.....
Some Shoutouts

[Dafaq.](#)

(The best guy on HF and my first actual friend)

HF India Group

(All the Indian brother's, You all have been very respectful and helpful towards me!)

There are a lot more but It would take me ages to write about all of you

.....
STAFF REVIEW

Omni

A very Chill guy who rages on people pissing him off! Don't be a fuckboi and it will be all good!

Factor8

Indian Brother! Helped me several times with BTC exchanges, Also the Best staff of Hackforums! I'll meet you someday

.....
My review on Groups

I have never ever been really interested in any groups. I have been on just instinct and no others. I feel they are just a waste of time and Money

My review on Sub-Forums

-E-Whoring-

The one i started with, It's was really good then but I hate going into that forum now. Every other kid posting same thread everyday, It badly needs some work

-Premium Sellers section-

50% Of the stuffs there are crap! People getting a program coded for 100\$ and selling 50\$ per copy! Always buy with caution, Fake vouches all around

-Online Accounts-

My Favourite Lurking place, Bought and sold a lot of stuffs here. It's the best market for online accounts on the internet

-Secondary Sellers market-

I don't know the reason but i like this one more than Premium seller section

.....
.....
That's it, Can't post much longer thread than this! Enjoy your stay on HF, It's the best thing happened to everyone

????

I don't know about a second life, think you might need to get into the real world a little bit more.

Apart from your very short tempered nature KiK, you are all good. ?

Also, you are one of those members who DOES makes bank and don't brag about it. ?
