Thread: [Project Venus - Information & Recruitment](#)

King Cin - September 14, 2015, 12:35 pm

What is Project Venus?

Project Venus is an upcoming innuendo revolution. It is an unofficial group that consists out of members that have contributed to Innuendo and know what they are doing within the field of innuendo. We will work on several projects together and try to change the Innuendo section. We are looking for members that have experience with anything that could be a point of discussion in the Innuendo section.

What is Project Venus's ultimate goal?

The ultimate goal of Project Venus is to dominate the Innuendo section. We should be able to offer the best advice to any question that comes up in the Innuendo section. When we have enough knowledgeable members, it's likely that we will be answering on most, if not all the innuendo threads with adequate advice.

Tbh there are so many contributions now I stopped counting. Anyways, I've seen more detailed and quality posts in Innuendo lately so this is still open. Looking for highly knowledgeable individuals.
