Thread: [Hard resetting Iphone 4](#)

**The Illusionist** - September 15, 2015, 12:16 am

Hello,

I want to hard reset a Iphone 4, but as far as I know if it has Icloud activation there is no way to reset it or anything. How can I check if it has this activation? And if it does is there any way to go around it?

Thanks, ?

For iphone 4 yes, you can bypass icloud.

SSH + WinSCP along with some bypassing files.

Message me, I will give you those.
