Thread: [Free steam game : AMNESIA : THE DARK DESCENT](#)

Habbodealer - September 16, 2015, 4:05 am

First of all, probably a lot of you know this already, and I take ZERO credits for this. Just want to give a heads up for the people that didn't know yet and want to expand their steam games list.

Today is the last day this game is free to download at steam, one of my favourite horror games.

Can't seem to find a share link from steam but just search for the dark descent

Hope you all enjoy and have a great day lads;)
