Thread: [How much BTC did you make off the free giveaway section before it was against rules?](#)

grates - September 16, 2015, 9:52 am

I made like a bit over .1 btc, which is fine because I made my money back from purchasing l33t.

Griev?us - September 16, 2015, 9:54 am

Honestly rarely participated in that section only gave away stuff in it. If I did I'd say I would have around an extra \$40 laying around.

Veezon - September 16, 2015, 10:04 am

Put it this way, more than people who won the lottery.

Truth - September 16, 2015, 10:06 am

Its a shame omni banned it. I made about 0.0001 BTC after entering 30 giveaways

I made like \$1 from the BTC giveaways. That was one of the reasons why I got L33t.
It's sad, I know.

Vitani's Mate - September 16, 2015, 11:31 pm

Around \$5 I guess.

I don't think it's a shame if you see it In his point of view, a lot of ppl were doing it for rep. Than some of them started scamming because of all the "rep" they had for giving out no more than 20\$ worth of BTC. Not saying everyone scammed but people took advantage of it.

rustley - October 21, 2015, 1:42 am

So far I've made \$11.40 off the Rewards and Small Favors section by doing menial stuff, never participated in giveaways though. When I have enough I probably won't be able to resist spending it on drugs but that's okay.

problems.x - October 21, 2015, 1:44 am

Nothing because I don't enter giveaways really ahaha
