Coffee Meets Bagel (Android, iOS)

Rating 3

Depending on how you can eWhore you can pull massive profit off this site.

[BRAND NAME REMOVED] (Android, iOS)

Rating 2

I have used this before. I don't use it as it seems a time-waster for me but someone may have their luck here.

Hitch (Android, iOS)

Rating 3

This site is great for new eWhorers trying to learn how to get their first few sales.

OkCupid (Android, iOS)

Rating 1

Terrible application, you will not have any luck here.

Match.com (Android, iOS)

Rating 3

I have used this website over the past few months to yield high profits, I recommend it and if you know what you're doing you can easily do the same.

Grindr (Android, iOS)

Rating 2

Into Gay-eWhoring? Here's your place to go and where I would suggest as #1 for Gay-eWhoring. Though it may be saturated I know it's possible.

Down (Android, iOS)

Rating 3

As a new application on the market this will be a gold-mine.

MeetMe (Android, iOS)

Rating 3

Great site, that's all I have to say. Made huge profit off this.

Skout (Android, iOS)

Rating 2

Site is somewhat saturated but is possible to yield profits.

MiuMeet (Android, iOS)

Rating 1

Site is really saturated but is possible to yield profits.

Moco (Android, iOS)

Rating 2

Untested

Happn (Android, iOS)

Rating 2

A lot of time-wasters but possible to yield profit.

<---?-----?-----?-----?--->

The above information will be updated weekly, in the case we find new sites that work and are not

saturated we will put them on the list. If you have suggestions or notice an error please contact one of us (Optimized/Grievous)

Vouch! Another HQ from Affectus! Legit apps and good descriptions for each of them.

Mikael Blomkvist - September 16, 2015, 4:01 pm

Thanks for sharing this, very HQ. Will try some of them in the next few days to see how it goes.

InfernoMode - September 16, 2015, 5:01 pm

Thanks for these new sites! Definitely going to try some of them out.

Kittin - September 16, 2015, 5:34 pm

Great post! Really helpful! Thanks for sharing!

Phreakdaline - September 16, 2015, 8:58 pm

Very useful for people looking to expand to new areas. If I listed some more would you care to include them, or evaluate for yourself?

Ronaldo. - September 17, 2015, 12:26 am

Thanks for the detailed tut. Would like to see more from AFFECTUS ?

Balding - September 17, 2015, 12:28 am

Awesome tutorial Grievous.

Rosebug - September 17, 2015, 1:35 am

Very nice post, I've been using old kik sharing sites and its good to have some new ways to find people for my ewhore.

lelgetrekt - September 17, 2015, 3:28 am

hey griebious is pof a good site to ewhore on?

akaswizz - September 17, 2015, 5:02 am

nice HQ post, maybe some will understand to not use "kik usernames" sites and go to social media :) (put some work on social media and u'll get like 1k add daily)

Of course, I would love to test them.

(Sep 17, 2015 03:28 AM)lelgetrekt Wrote: [\[CITE\]](#) hey griebious is pof a good site to ewhore on? It's alright, it's filled with eWhores and it's been around for ages so you're going to have tons of time-wasters.

Phreakdaline - September 17, 2015, 7:20 am

So if you include Grindr and Down, definitely should list [BRAND NAME REMOVED], though I'd call it a Rating 1, 2 at best if you're good at what you do and don't auto-pilot it. Incredibly saturated with very fake auto-pilots, but also incredibly high amount of traffic with mega thirsty dudes.

I'd also list Yik-Yak, mostly as one to stay away from. Seen people mention it, and I've used it, but sucks compared to others like it.

Whisper, also a fine line between Rating 1/2 imo. LOTS of people looking for hookups there, not much traffic in the way of pic pack sales, but if you can string people on for hookups, pretty great.

Sorry for the short list lol, at work atm. I'll list a few more I know of later. Feel free to not give a fuck about my input on these if you want to test them yourself before giving an opinion lol.

I will include these soon, thank you for the list.

bomberforex - September 17, 2015, 3:50 pm

For sure one of the best thread of the last days?

Rod\$ - September 18, 2015, 4:21 pm

Yik yak is a bad idea, so is [BRAND NAME REMOVED], grind3r is gay, whisper is mainly filled with teens.

James Burnham - September 22, 2015, 10:41 pm

Read that guide instead of opening new threads. It is really useful.

Griev?us - September 28, 2015, 12:37 am

Going to bring that back up to the top.

THEREALOGe - September 28, 2015, 5:03 am

hey kate i want 2 buy ur nudes where u go man

Kudayoru - September 28, 2015, 6:40 am

Good tutorial! Will try them out later tonight.

Griev?us - September 30, 2015, 2:15 pm

Pushing this back to the top for people to see.

Satan666xx666 - *September 30, 2015, 8:20 pm*

badoo is annoying it removed pictures of my ewhore taking selfies of herself with no nudity or sexual poses saying they violated their guidelines. complete bs and meetme seems to have banned me or something i cant seem to log in.

Roast - *September 30, 2015, 10:02 pm*

Very nice HQ post OP, love it!

Griev?us - *October 3, 2015, 1:08 pm*

Bringing this back to the top so people know the do's and donts.

Buffy Summers - *October 3, 2015, 1:47 pm*

Nice list! I would add Scruff to the list for gay apps. It's much better than Grindr because it's global. Most guys on Grindr want to pay for IRL sex because they're close to you. You can connect with people across the world on Scruff.

Griev?us - *October 7, 2015, 4:26 pm*

Great guide for everyone to use.
