Thread: [Task manager](#)

iLogic™ - September 17, 2015, 9:54 am

Hello HF ! ?

I found my old project when I was cleaning HDD and I want release it here.

Task Manager

Simple task manager with basic features.

Features:Kill process

Run process

Refreshing

Sorting by name

Sorting by PID

Background color change

Completely written in C#. Code is commented and easy to read. Archive contains source code with executable.

[Download it here](#)

[Virus scan](#)

Enjoy ?

Interesting, posting to see this in the future, nice release OP.

Carlsson94 - September 18, 2015, 5:20 am

You should consider getting github, it's a great place to have projects.
