??Affectus??

If you need help Photoshopping pics, join us!

Welcome to the newest incarnation of the "E-Whoring Photoshop Group" of which there have been hundreds.

This group is different. We strive to be professional, stay on topic, and be as helpful as possible.

The goal of this group is to have an on topic group, which is strictly for requesting and offering verification pic altering.

This could include basic text on paper, text on body, or any other Photoshopping of a picture for E-Whoring purposes

THIS GROUP IS NOT A LOUNGE

I will warn you now, that this group has a strict NO SPAM policy. If you are constantly engaging in off topic discussions, or spamming at all, you will be banned, don't bother joining

If however, you would like to take part in a new community of E-Whores who want to help each other out in a professional manner, feel free to apply

This group is both for people who need help altering verification pics regularly, as well as skilled photo editors that would like to help give back to the community

Thanks Philip J Fry. I'll add you to the group.

I'd appreciate future applications being posted in the thread, unless there's something that people really aren't comfortable sharing publicly. Of course Skype name can always be PM'd if you don't want it posted.

This group is pretty much dead. We had plenty of people ready to help, but rarely anyone that requested it. Anyone is still welcome to contact me via pm for photoshop help.
