I really like the logo. Simplistic and, well... it just works!
Good Luck! ;)

I don't like the black in-between the blue, it hurts my eyes trying to differentiate between the colours.

Logo is clean tho, nice concept.

Is your monitor calibrated? Its actually just a dark blue, but I do agree with you a little now, it feels somewhat out of place but at the same time (at lease for me) fits it.

Simple designs are the best designs for me, I like the logo it is really nice. This is very barely noticeable and it may just be my eyes, but the bottom button on the right hand side seems to be a few pixels too far down. Frame perfect, Not quite pixel perfect (Had to be said ;))
