What can be done in this case if they really want to pay but need to hear you before?

Acid. - September 18, 2015, 5:06 pm

/25characterGo to your phone, install last kik, ask any female say what do you want meanwhile you record a vid looking to nowhere and resend to your ewhore kik. You got a live vid with voice message.

Well, don't moan. Something like "Hi, I am X on kik" should work for verification.

I did the same, I want a girl to moan my name :(

Kelsaa - September 18, 2015, 6:25 pm

I guess you need to have a girl ewhoring with you to do that lol. It requires too much work if people ask for it right away.

I've had multiple people believe ivona.com.

Don't type too much just say their name and they'll believe you gl
