Thread: [What did everyone think of Shimoneta?](#)

agentrx - September 22, 2015, 12:31 am

As perverted as it was, it had a decent story. I thought it was a bit short and the main enemy was not really that menacing. I do think the main guy is an idiot for refusing Anna's advances. It's an 8/10 for me.

Peanut Butter - September 22, 2015, 4:58 am

yeah why wouldn't you refuse her "advances" such as Spoiler [\(Click to View\)](#) holding scissors to her bestfriend's throat, tying him up, stabbing all around his assumed little sister, breaking into his house, chasing him around trying to get him to love her and the fact that she's completely delusional about love and what's pure.

The show was okay, more of a stupid funny than anything. In the end it's still a boring world where dirty jokes don't exist. ~7/10

Ran - September 22, 2015, 6:34 am

Since you say it's Ecchi like might as well add it to MAL :3

JandersonsSnow - September 22, 2015, 9:54 am

My first impression was, that the anime is quiet silly but at least entertaining and random enough to watch it. But recently I heard that the regulation of pornography is actually quiet a hot topic right now in asia. I think it was only Japan and Hongkong -but not the republic of china- that allows the production and trading of pornography. Kinda similar like the marijuana debate, I think.
