I finished Episode 8 today and I must say, I quite like it, has potential
Anybody else been watching this aswell?

Now just to wait until Sunday for Episode 9

Is it any good?

Watched first episode, and to me it seemed pretty bad. Animation is good, but the plot with this ridiculous op MC with the "Charge in before thinking" Mentality. Really, these anime get on my nerves recently.

Is it really worth watching?

You might've not noticed it, or didn't even search. But next time make sure to :)
Same with that guy who opened a new Gakkou Gurashi discussion.
