!!! In the poll i used 'realise the newcomers'. Should be 'make the newcomers realise'(bad english)
!!!

I need some good advice. I'm afraid to try things. I mean I got ideas, alot.. but.. I never know how or where to start out. (CPA related) I have invested once in a website but i didnt stick to it because it took me way to much time because i like to perfect things to much.. the full site wouldve take me 100+ hours with quality content on it for fucking cheap ass free spotify/netflix accounts wich were content locked. Fuck. I've never seen any real returns so wich makes me doubt my skill. Anyone got tips for me to see a small return? If i see something popup in my paypal it would motivate me so much. (not asking for donations, just self earned money)

Atm I got a great idea to generate free traffic to something. But again.. i take way too much time to make a vid for example. I would take 2-3 hours to make a fucking simple vid wich a kid could make in 10 mins. I just want it to flow perfectly so it's nice for the eye to see..add an effect that's almost not noticeable here and there just so you get a feeling out of the vid. That's what makes me quit so soon.. the realisation of the effort im going to put in for something i'm not even certain of..

Note: I work a day job so i can reduce effort. (investing here and there to speed up things) I'm soon going to start again working on my ideas. This weekend actually. I'm sure I can do it. I'm going to study digital business for gods sake. I just need to stop doubting myself.

Anyone got stories from when they struggled to start up? Would like to hear some stories. Hearing about the failures of others and countless hours they put in to make something work. Would be motivational for me. Post ahead or if u only want to share it with me just PM it.

P.S. Not asking for any E-books/Guides/Methods. & I don't like being ridiculed, laughed at or made fun of. Please only serious replies. :)

Maybe is this a good idea; <https://hackforums.net/showthread.php?tid=4995744>

Hes teaching people to earn money. He also does the investment for you.

Kendrick T.D.E - September 23, 2015, 12:03 pm

Yeah I contacted him, but i don't need teaching really, all i need it some motivation. I've got this idea in my head that it's only lucky people with sites that a blind monkey could've made, earn 100's of dollars off of it.
