ImPerfectPersona - September 22, 2015, 5:45 pm

In need of mood elevation, please post happy, or energizing songs.

Like [Video: <https://www.youtube.com/watch?v=nbXgHAzUWB0>] is a good type of song for this.

Hell even cheesy love songs. Basically whatever songs that give you good feels please. Thanks

But the point was for songs that made people personally happy. Had a much better effect than just listening to random happy songs. Perhaps a human connection thing unsure.

The First video was adorable.

The second one was a surprise, always loved Kyary's MV's and songs, never expected one to show up here lmao. Always get a smile from those videos. Just such a weird and interesting person.

uhh the guitar solos gave us a headache...
