Hey everyone, just want to share my succeed. So I got a 100+ victims per one hour.

How did I did it?

I created a fake program. The program was like torrent searcher for one of Lithuanian trackers and it was binded with cybergate server.

Now i have over 200+ victims and no one even know, that it's fake program and binded with virus ?

enjo4853 - June 24, 2010, 3:52 am

Nice! epic win. What torrent site did you upload it on? # or something else.

SimplyPro - June 24, 2010, 3:56 am

No, it's Lithuanian - torrent.lt.

Definitely they don't know much about PC.

More than half of them don't even have antivirus software :D

Dieko - June 24, 2010, 3:58 am

Good job on the spread mate , Keep up the spreading and have some fun!

xNereus - June 24, 2010, 4:13 am

Damns. I sent more than enough servers of my own and none of them load anymore. All the connection settings are right and the victims have no AV. So, maybe it's my router crashing that looses it ?

preben1995 - June 24, 2010, 4:13 am

wow nice! how did you get all that victims??

Vendetta116 - June 24, 2010, 4:13 am

HOLY SHIT i have with 1 minute after the PM I get 2 victims! WOW psot a tutorial I GIVE u rep

xNereus - June 24, 2010, 4:27 am

Definitly. Pro-tip: When finding people to connect to, what always works for me is i tell them i am into programming, and i created a dll file organizer to prevent system crashes. It's complete BS but it works miracles. Just say you need testers and when they click on it, it will disappear(depending on the options you ticked) and walaa you are connected, then you play god and they play the donkey.

SimplyPro - June 24, 2010, 4:43 am

I made all you request now! :D
