Thread: [\[TUT\] Google and YouTube Searcher](#)

iShockYouu - June 24, 2010, 4:28 am

Its Very Basic But A good tool

Open Visual Basic 2008 Express Edition.

Click on Project next to Create:

[IMG]http://i45.[censored].com/2h2mt1.jpg[/IMG]

Click on Windows Form Application, and name the project "Your name's Searcher" and then click Ok

[IMG]http://i50.[censored].com/18mdg8.jpg[/IMG]

Add a textbox and 2 buttons: Change the buttons text's to Search Google and Search Youtube

[IMG]http://i47.[censored].com/xo35ar.png[/IMG]

Now time for the coding part :D:D:D

Double click on the "Search Google" button and add the following highlighted code:

PHP Code

```
<?php
```

```
Private Sub Button1_Click(ByVal sender As System.Object, ByVal e As System.EventArgs)  
Handles Button1.Click
```

```
    Dim GoogleCode As String  
    GoogleCode = TextBox1.Text
```

```
    Dim FixedGoogleCode As String  
    FixedGoogleCode = GoogleCode.Replace(" ", "+")
```

```
    Process.Start("iexplore", "http://www.google.com/search?hl=en&q=" + FixedGoogleCode +  
"&aq=f&oq=")
```

```
End Sub
```

Double click on Search Youtube and add the following highlighted code:

PHP Code

```
<?php
```

```
Private Sub Button2_Click(ByVal sender As System.Object, ByVal e As System.EventArgs)  
Handles Button2.Click
```

```
    Dim YouTubeCode As String
```

```
YouTubeCode = TextBox1.Text
```

```
Dim FixedYouTubeCode As String
```

```
FixedYouTubeCode = YouTubeCode.Replace(" ", "+")
```

```
Process.Start("iexplore", "http://www.youtube.com/results?search_type=&search_query=" +  
FixedYoutubeCode + "&aq=f")
```

```
End Sub
```

Now Your done.

Click on [IMG]<http://img231.imageshack.us/img231/9148/debugi.jpg>[IMG] Button

and do whatever. :)

Thank you for this mate; very useful.

Quintic - June 26, 2010, 12:46 pm

Thx great help d;

andrew ?

DStroyer21 - April 2, 2011, 2:49 am

there is an shorter code like this one:

```
Process.Start("http://www.google.com/#hl=en&source=hp&q=" & TextBox2.Text)  
for youtube
```

```
Process.Start("http://www.youtube.com/results?search_query=" & TextBox1.Text & "&aq=f")  
put those under some buttons and see it works!
```

The MammoTh - April 2, 2011, 3:20 am

You made it harder then it really is Use the above ones.
