I need good plugins for Nanocore, which can provide me with password, etc.
All in all, good for Steam Stealing 'n such.

Just by searching, i found the keylogger, password recovery and a lot more plugins.
OP, when downloading make sure they are not .exe files. NnoCore plugins have a special extension.

DaFreak setup the RAT for OP, somethings happened (probably some error), going to redo the setup and then DL all plugins from legit sites
OP - We'll assist you.
