Wow.

Sucks to be me, I really try to e-whore sometimes, although it literally never works for me, always get time wasters, and not people that are actually interested in buying from me, maybe someone on the thread can PM me and give me some advice?

I'd love to do it as I'm sure it pays off soo good when you get the hang of things.

I'd give up that money to go to school.

Either way. Well done man ?

I'd love to do it as I'm sure it pays off soo good when you get the hang of things. I don't use any specific method... Before i started ewhoring, i did a very long research about it. I was reading tutorials for like 4-5 hours and i tried to read every tutorial i found. First two day i earned nothing and almost gave up and then third day i got my first 10\$ and was happy af:D

Just keep trying dude! Also ewhoring pack you are using is very important.. I use the one i found here on hf i think and its working great...!
